Downriver Golf Course is a layout that can be enjoyed by players of all skill levels. While not intimidating for the occasional player, it also provides a great challenge for the accomplished golfer. Downriver is one of the oldest golf courses in the Spokane area built in 1916. The golf course is heavily treed and lies along the Spokane River and is bordered by Riverside State Park. Over the years Downriver has become a community favorite.

Esmeralda was constructed in 1956 and is located in northeast Spokane. This course offers open space and flat fairways lined with over 2,000 trees. This combination of attributes makes this superbly maintained course an easy one to break 100 on and tough to break par. The layout lends itself to all levels of golfers. Seniors to beginners find Esmeralda a great haven and help to make it Spokane's most played municipal course with par 70, 6,249 yards.

The Creek at Qualchan is Spokane's newest golf course, offering a new dimension to golf in the Spokane area. A creek meandering throughout the course, five ponds, wooded and hilly areas, a few holes with open beauty, and well protected greens add a new treat to Spokane's enthusiasts. Qualchan is located in a very natural setting, a sanctuary for many species of birds and wildlife. The Creek at Qualchan is a member of the New York State Audubon Society. Four sets of tees and a par of 72 will give all skill levels a special golf experience.
